

I'M ON A SHIP

Lyrics: Les Kotzer / Music: Lewis Manne

I'm on a ship,
Counting the stars
Hoping they'll align for me
On this trip
I've come so far
What will my future be?

CHORUS

Where will I be 10 years from now?
Where will I be tomorrow?
Will it rain or will the skies be clear?
When I'm miles away from here

The sun was shining
All day long
Now it's dark and still
It's been good
Too good to end
But I know it will

CHORUS

Where will I be 10 years from now?
Where will I be tomorrow?
Will it rain or will the skies be clear?
When I'm miles away from here

The ocean breezes
Cool the night
I wonder where the winds will blow
I'm on the high seas
Of my life
You never know, which way you'll go

CHORUS

Where will I be 10 years from now?
Where will I be tomorrow?
Will it rain or will the skies be clear?
When I'm miles away from here

I'm on a ship, I'm on a ship
I'm on a ship, I'm on a ship
