

BEFORE IT FADES AWAY

L. Manne/L. Kotzer

There no second chances  
Make the best of what life brings  
You think time is on your side  
Until that alarm clock rings  
It's a wake up call

Hug & kiss her, be her fan  
Take a walk and hold her hand  
Like children running on the sand  
Enjoy it while you can  
    Before it fades away  
    Before it fades away

Don't keep it locked up inside you  
Now's the time to show you care  
In life no one ever knows  
Imagine yours without her there  
It's a wake up call

Tell her you love her everyday  
Don't ever be afraid to say  
What you're feeling in your heart  
How it feels to be apart  
It's a perfect time to start  
    Before it fades away  
    Before it fades away

You take so much for granted; say you'll call and never do....  
Too busy with your life; no time to see it through....  
Then suddenly it happens; the phone rings late at night....  
Your heart pounds, your hands shake; thank goodness she's alright

Tell her you love her everyday  
Take every chance you have to say  
What you're feeling in your heart  
You should never stay apart  
Now's the perfect time to start  
    Before it fades away  
    Before it fades away  
    You better treasure everyday  
    Before it fades away
